Description of shoe dryer 300 T

Beha shoe dryer SKO 300 T is for wall mounting. It has 60cm long tubes. The air is drawn in at the front and are led through the heating element down into the tubes. The shoe dryer can be used with timers from 30-180 min. or without timer. It is perfect for those who constantly have dripping wet shoes and boots that have been out playing or training in soaking wet weather.

Item number

Name	Effect	Item no.	El.no.	Nobb no.	GTIN
SKO 300 T	300W	317610	54 283 85	25396797	7026573176105

Installation on wall

Screw in 2 screws 148mm apart. Make sure that the screws are at the same height. Mount the shoe dryer on the screws and slide it to the right and down.
